Steppenwolf

They're talkin', talkin' about Molly She's cryin', isn't it funny I turned her without any money

She's 28 years old tonight I told her not to fear, it's all very right

She listened and came to my side Then whispered she wanted to ride She slowed down right with the tide

She told me she's wormin' her knees I touched her, she's started to breathe She opened and let in the breeze

She's 28 years old tonight I told her not to fear It's all very night

Silk on silk Feather and light Make the black out of the night Silk on silk Feather and light Make the black out of the night

She's 28 years old tonight I told her not to fear It's all very night

They're talkin', talkin' about Molly She's cryin', isn't it funny I turned her without any money

Next morning, two nights after She woke up, grinning with laughter I kissed her, she came at me faster

She's 28 years old tonight I told her not to fear It's all very night

Silk on silk Feather and light Make the black out of the white Silk on silk Feather and light Make the black out of the white
