A Fool's Fantasy

Steppenwolf

Slip away with me Let our hears be free Live a life of love There's no need to care Sharin' it together Whatcha got to lose? In love and life, it's all you get It's easy to choose

There's a way for love We can make it work There's a way for love A fool's fantasy Is that so much to ask for? Everything we're dreamed about Could be ours forevermore

Take a chance on freedom Come take a chance on me We'll drown ourselves in pleasure Just happy to be Without inhibitions and nothing to fear We'll while away the summer sun Nibblin' on an ear
