

Lovely Meter

Steppenwolf

Turn on you lovely meter and see me.
They sent you here right special to please me.
We came to conclusions, and sailed a sailor night,...

It seems like another time, another time..
One time left to be,
One time left to be,
Yeah one time left for me.

I kissed your fragrant bosoms, completely.
We swam across the waters, to calm the sea
Softly spoken words of dreams, gently touch your mind...

It seems like another time, another time..
One time left to be,
One time left to be,
Yeah one time left for me.
