

# Skullduggery

Steppenwolf

Thought I was cool when I played in school for all my family  
Had a smile for quite a while but now I finally see  
All the girls at your feet made you want to play for free  
Now I know they got my soul I was too damn blind to see

Skullduggery, skullduggery, skullduggery, skullduggery

Out 'ta sight everything's alright are the words that fed my head  
Don't look now if you turn around you might just wind up dead  
Got our crew and look it fool, the gun's aimed at your head  
Play all night better get it right tomorrow call the feds

Skullduggery, skullduggery, skullduggery, skullduggery

Bridge: It's too late baby but it's alright  
'cause we're gonna make it with you tonight  
The world outside's livin' all alone  
'Cause we've been makin' plans of our own

Skullduggery, skullduggery, skullduggery, skullduggery

Had your fun, now your work is done, you've just been usin' me  
All the while had a big bad smile but not quite like your fee  
You've been a jerk for what it's worth; a friend is what I need

Now I know that you're the fool and I am finally free

Skullduggery, skullduggery, skullduggery, skullduggery  
Skullduggery, skullduggery, skullduggery, skullduggery
