

# The Night Time's for You

Steppenwolf

You're hair hangs under black silk  
The gown you wear blows in the wind  
You're one of the devils best friends  
Your burning eyes are doin' me in

The night time's for you, yeah the night time's for you  
The night time's for you, yeah the night time's for you

You think up evil and sin  
And take away everything that I own  
Talk in symbols and signs  
That goes beyond anything that I've known

The night time's for you, yeah the night time's for you  
The night time's for you, yeah the night time's for you

Does the night give you power just to rule over me  
I've been waiting for the hour 'til your chains set me free  
Set me free, set me free, set me free

Full moon shines in your eyes, a bell tolls  
Keeps ringin' the hour  
The birds you keep, scream to be free  
And like a bird I'm under your power

The night time's for you, yeah the night time's for you  
The night time's for you, yeah the night time's for you
