

Turn Out The Lights

Steppenwolf

Oh, another gray and dreary mornin'
Frost on the window, snow against the door
The world will turn without me
For today I won't be movin'
Won't you lie back down beside me girl
Get your feet off that ice cold floor
Let's you and I stay out of sight
Let's you and I make love all day, all night

Turn out the lights, turn out the lights
Turn out the lights and gaze into my eyes

Slowly the day slips under cover
A day to be remembered while dreaming in the dark
At times like these I wonder
Why am I the lucky lover
Who found the joy and loveliness
That lies here in my arms
The day is done, here comes the night
Let's have some fun and games tonight

Turn out the lights, turn out the lights
Turn out the lights and gaze into my eyes

Let's you and I play games tonight
Let's start the fun, time is getting tight
And time is what we need to do this right
Ah, so turn out the light

Turn out the lights, turn out the lights
Turn out the lights, turn out the lights
