

Back To You

Steps

I know I hurt you baby and I'm sorry
But I'm back now so don't you worry
Darlin what can I say I couldn't keep myself away
I think it's time that we got back together
Cause we'd only be lonely forever
Darling we've gotta try ain't no good in goodbye

Oh oh oh time will answer all our questions
All I need id your affection

Wherever I go
Whatever I do
Everything reminds me of you
Wherever I go
Whatever I do
Love keeps bringing me back to you

The things we said, well I guess we didn't mean them
Now I've head time I understand your reasons
Darling you won't regret believe me I won't forget
Cause this time our love will be much sweeter
And I promise to look a little deeper
Darling what's one is done our best is yet to come

Oh oh oh, time will answer all our questions
All I need id your affection

Wherever I go
Whatever I do
Everything reminds me of you
Wherever I go
Whatever I do
Love keeps bringing me back to you
