

Happy

Steps

Now it's late but it's morning
Damn, I can't even keep track of time
And you say, that we're almost there now

And my love like a shiver
I am scared to open up my eyes
So I pray, that we're almost there now, yeah

I got a different heartbeat
Baby we used to be synchronized
The timing is also high
You should leave now

Cause the time go mend has come
And gone and I, baby I've tried
But I've cried too much and I
I used to be happy
We used to be happy
I used to be happy
We used to be happy, happy, happy

You got fake expectations
They're illusions of reality
And I'd wait, cause we're almost there now, yeah

I got a different view now
Baby I used to be so alive
It nothing enough and high
You should leave now

Cause the time go mend has come
And gone and I, baby I've tried
But I've cried too much and I
I used to be happy
We used to be happy
I used to be happy
We used to be happy, happy, happy

I, I, I, I, I, I
I, I, I, I, I, I, we used to be happy
(I know, you know, you know)
We used to be
(I know, you know, you know)
Oh, we used to be happy

You should leave now
Cause the time go mend has come
And gone and I, baby I've tried
But I've cried too much and I
I used to be happy (yeah~!)
We used to be happy
I used to be happy
We used to be happy, happy, happy

We used to be happy
Now it's late but it's morning
Damn, I can't even keep track of time
