

Back To The Future

Stereo Skyline

I went back to the future just to see what we could be.
Hopped in my car and drove around the galaxy
It turns out I tripped and fell under your spell
well maybe it's chemistry

Hey what's up today let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy with all I'm spinning around
let's go back to the future now

Picked up my phone to see if you were texting me
You said get out of bed let's take a ride
Inside my time machine and I said..

Hey what's up today let's press rewind hop in my time machine
Because I'm getting kinda dizzy with all I'm spinning around
let's go back to the future now

Hey what's up today let's press rewind hop in my time machine
Because I'm getting kinda dizzy with all I'm spinning around
let's go back to the future now
Hey what's up today
what's up today [repeat]

It's been a minute now without you
Wasting my time thinking about you
'Cause time flies but so do I come on inside and
take a ride back in time

Hey what's up today let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy with all I'm spinning around
let's go back to the future now

Hey what's up today let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy with all I'm spinning around
let's go back to the future now
