

## Downtown

Stereo Skyline

(yeah yeah girl that's what I'm gonna do)

Girl maybe I made this just a little bit  
harder than it has to be, but you'll see that one day  
Just don't spin me around,  
please don't mess me around again.

Cause I've been making my way downtown to your window  
Staying up late on the phone talking real low  
watching old movies, thinking I should be with you  
yeah girl that's what I'm gonna do.

Your friends say don't sweat it don't let her  
get into your head again but maybe, yeah one day  
just don't spin me around please don't mess me around again.

'Cause I've been making my way downtown to your window  
Staying up late on the phone talking real low  
watching old movies, thinking I should be with you  
yeah girl that's what I'm gonna do

Cause she knocks the socks off my feet  
she's hot like a fever of one-oh-three  
she turns my frown upside down.

'Cause I've been making my way downtown to your window  
Staying up late on the phone talking real low  
watching old movies, thinking I should be with you  
yeah girl that's what I'm gonna do

'Cause I've been making my way downtown to your window  
Staying up late on the phone talking real low  
watching old movies, thinking I should be with you  
girl that's what I'm gonna do  
yeah girl that's what I'm gonna do
