

Me & You

Stereo Skyline

The words me and you never ever sounded so cool
The words me and you never ever sounded so cool

You're so so sweet
you're makin' my teeth hurt girl
you're makin' my lips work girl
I'm thinkin' I should tell you that
It takes a girl like you to turn my head into
a pop song sung without a tune it's just du du du du du du

Baby, you're my Rocky Road
My mint chocolate chip and more
Feels like a cavity for sure
But here's the scoop
taste the truth
The words me and you never ever sounded so cool
The words me and you never ever sounded so cool

You're so so sweet I've been losing sleep all week girl
I've been tripping over my feet girl
I'm thinkin' I should tell you that
It takes a girl like you to turn my head into
a pop song sung without a tune it's just du du du du du du

Baby, you're my Rocky Road
My mint chocolate chip and more
Feels like a cavity for sure
But here's the scoop
taste the truth
The words me and you never ever sounded so cool
The words me and you never ever sounded so cool

(hm ba ba ba hm ba ba ba)
(hm ba ba ba hm ba ba ba)

'Cause she knows just what to say
to brighten up my day (brighten up my day)
Make me feel okay
'Cause she's all of the above
Exactly what I'm dreaming of (what I'm dreaming of)
I keep losing my footing and stumbling and falling in love love love

It takes a girl like you to break my heart into
a million pieces without a clue it's just you
du du du du du

Baby, you're my Rocky Road
My mint chocolate chip and more
Feels like a cavity for sure
But here's the scoop
taste the truth
The words me and you never ever sounded so cool
The words me and you never ever sounded so cool
