

# My Girl

Stereo Skyline

You're my girl  
You're my girl  
You're my girl, my girlfriend  
You're my girl  
You're my girl  
You're my girl my my my  
I found love on top of the moon  
Floating around like lovers do bonding  
The gravity pulled me from you  
Because you're my girl  
You're my girl, my girlfriend  
My heart you got it  
Take time and drop it  
Just try and stop it now  
You're out of this atmosphere  
I'm tryna make it clear  
That gravity disappears  
When ever you are near  
Because you're  
You're my girl  
You're my girl  
You're my girl, my girlfriend  
You're my girl  
You're my girl  
You're my girl, my girlfriend  
We are in a heart shaped car  
Flying one way on passed the stars  
Please don't leave me baby  
I've been mixing crazy  
But some might call in love  
(but some might call in love)  
My heart you got it  
Take time and drop it  
Just try and stop it now  
You're out of this atmosphere  
I'm tryna make it clear  
That gravity disappears  
When ever you are near  
Because you're  
You're my girl  
You're my girl  
You're my girl, my girlfriend  
You're my girl  
You're my girl  
You're my girl, my girlfriend  
(out of this world  
Girl you're out of this world  
Girl you're out of this world  
Girl you'r out of this world)  
You're out of this atmosphere  
I'm tryna make it clear  
That gravity disappears  
When ever you are near  
Because you're  
You're my girl  
You're my girl  
You're my girl, my girlfriend

You're my girl  
You're my girl  
You're my girl, my girlfriend  
(I found love on top of the moon  
Floating around like lovers do bonding  
The gravity pulled me from you  
Because you're  
You're my girl  
You're my girl  
You're my girl, my girlfriend  
You're my girl  
You're my girl  
You're my girl, my girlfriend  
You're my girl  
You're my girl  
You're my girl, my my my
