

## Neon Beanbag

Stereolab

I'm sad to see that you are sad  
I'm sad to see that you are sad  
But there's nothing to be sad about  
Really nothing to feel bad about  
There she was standing peacefully  
Sending the message through telepathy  
Way beyond the speculation  
Furthest away from any condition  
But there's nothing to be sad about  
Really nothing to feel bad about  
There she was standing peacefully  
Sending the message through telepathy  
Way beyond the speculation  
Furthest away from any condition  
Here to pacify, connected to joy  
Here to pacify, connected to joy
