

it's alright 'cos the historical pattern has shown
how the economical cycle tends to revolve
in a round of decades three stages stand out in a loop
a slump and war then peel back to square one and back for more
bigger slump and bigger wars and a smaller recovery
huger slump and greater wars and a shallower recovery
you see the recovery always comes 'round again
there's nothing to worry for things will look after themselves
it's alright recovery always comes 'round again
there's nothing to worry - things can only get better
there's only millions that lose their jobs
and homes and sometimes accents
there's only millions that die in their bloody wars,
it's alright
it's only their lives and the lives of their next of kin
that they are losing
it's only their lives and the lives of their next of kin
that they are losing
it's alright 'cos the historical pattern has shown
how the economical cycle tends to revolve
in a round of decades three stages stand out in a loop
a slump and war then peel back to square one and back for more
bigger slump and bigger wars and a smaller recovery
huger slump and greater wars and a shallower recovery
don't worry be happy things will get better naturally
don't worry shut up sit down go with it and be happy
dum, dum, dum, de dum dum, de duh de duh de dum dum dum... ah a
