Stereophonics

Suzy Q
What makes you?
On the inside outside
Upside downside
It's true
I never looked and you
You would have torn me inside outside
Upside downside

You're a back street driver on the side of the road
Ten cups of coffee and you're gonna explode
You wanna mow me down like a domino
You're riding around like Geronimo
You're a back street driver on the side of the road
Ten cups of coffee and you're gonna explode
You wanna mow me down like a domino
You're riding around like Geronimo

Picture the scene
You know what I mean

Cadillac in blue
Vanilla seats and you
Are looking good on the inside outside
Upside downside
It's true
You got me hooked on you
And you rip me inside outside
Upside downside

You're a back street driver on the side of the road
Ten cups of coffee and you're gonna explode
You wanna mow me down like a domino
You're riding around like Geronimo
You're a back street driver on the side of the road
Ten cups of coffee and you're gonna explode
You wanna mow me down like a domino
You're riding around like Geronimo

You're a back street driver on the side of the road
Ten cups of coffee and you're gonna explode
You wanna mow me down like a domino
You're riding around like Geronimo
