

Change what ya can,  
but the rest you just gotta let go,  
Taste every drop of life you can you know,  
'Cause time is short it'll soon be time to go  
Don't be afraid to dream and live life here and now 'cause that  
's what's real, all the rest of it is just all make believe  
So live here in the moment

and live that dream my angel  
Be my saviour  
Take my soul and live 'n' love today  
So live your dream my angel  
Be my saviour  
Take my soul and live 'n' love today

You'll never understand it all when things go right or wrong,  
take that from me  
In love 'n' life there ain't much sympathy  
So grab your coat it's cold

and live that dream my angel  
Be my saviour  
Take my soul and live 'n' love today  
So live your dream my angel  
Be my saviour  
Take my soul and live 'n' love today

You'll never understand it all  
Read the writing on the wall  
See the world and be what you wanna be  
Don't be afraid to dream  
Live 'n' love and live free  
The rest is all make believe to me

So live your dream my angel  
Be my saviour  
Take my soul and live 'n' love today  
So live your dream my angel  
Be my saviour  
Take my soul and live 'n' love today
