

Pick a Part That's New

Stereophonics

I've never been here before
Didn't know where to go
Never met you before

I've never been to your home
That smells not unknown
Foot steps made of stone
Walking feels familiar

You can do all the things that you like to do
All around underground pick a part that's new
You can do all the things that you like to do
All around upside down pick a part that's new

People drinking on their own
Push buttons on the phone
Was I here once before?

Is that my voice on the phone
That last drink on my own
Did I ever leave at all
Confusion's familiar

(3x):

You can do all the things that you like to do
All around underground pick a part that's new
You can do all the things that you like to do
All around upside down pick a part that's new

So what's new to you?
What's new to you?
What's new to you?
