

# Song for the Summer

## Stereophonics

Open my eyes  
Today's a new day  
Tell myself take my time  
Put the brakes on my brain

Wrap me up  
Spin me round  
Spit me out  
I can feel either way

So maybe you're down in the gutter  
Or high in the clouds it don't matter

Song for the summer  
Song for the rain  
Get a little closer to see clear again  
Song for tomorrow  
Song for today  
Come a little closer  
To feel right again

All this while  
Which road should I follow?  
Sit yourself down  
Come right tomorrow

Wrap me up  
Spin me round  
Spit me out  
It's always the same

So maybe you're down in the gutter  
Or high in the clouds it don't matter

Song for the summer  
Song for the rain  
Get a little closer to see clear again  
Song for tomorrow  
Song for today  
Come a little closer  
To feel right again

Song for the summer  
Song for the rain  
Get a little closer to see clear again  
Song for tomorrow  
Song for today  
Come a little closer  
To feel right again

Song for the summer  
Song for the rain  
Get a little closer to see clear again  
Song for tomorrow  
Song for today  
Come a little closer  
To feel right again, to feel right again
