

# Jet Black Cadillac

Stereos

I want a Jet Black Cadillac, everybody looking back  
Checking out my ride, trying to get inside  
But I go too fast, I make it last  
Never gonna get this boy off track  
So girl, soon as I'm rollin, we'll go for a ride

I want a ride that's got the honeys stepping in yo  
Turn up my music til it's blowin out the window  
And if I got it, I'ma roll it by you every time

And everybody's gonna be like "could you show me?"  
With all these other honeys actin like they know me  
And if I got it, I'ma roll it by you every time.

We ridin on 24's, red carpet every show  
But there ain't nothin that gets me goin like the way that we roll  
So if you get in with me, I'll treat you right and you'll see  
I'd put the pedal to the metal for you

Let's Roll! You and me, girl, in our own world singin  
"Whoa-oh-oh-oh"  
Let's go! And shorty, you'll see  
That we ain't never lookin back  
Jet Black Cadillac

I'm never stoppin cause there ain't no lights around me  
Me and my Caddy, girl, we're happy that you found me  
And if I got it, I'ma roll it by you every time  
We ridin on 24's, red carpet every show  
But there ain't nothin that gets me goin like the way that we roll  
So if you get in with me, I'll treat you right and you'll see

Jet Black Cadillac  
We ridin on 24's, red carpet every show  
But shorty you know I'll be there cause our love is ridin low  
We go from here to sixty, never have to miss me  
Drop top, no stop, unless you wanna kiss me

I want a Jet Black Cadillac, everybody lookin back  
Checkin out my ride, trying to get inside  
But I go too fast, I make it last
