

On Our Way

Stereoside

We were 6 years old standing in the front row
singing every word to every song its true
We got the rock n roll rythm and blues

Well the record mans screaming that rock n roll's dead
well we think that he should sell cars instead
he's a fool, they try to take away the things we hold
true

So if you care about rock then sit right there we'll
take your ass back
to the early years where the jams were tight the kids
could play
the music didn't suck and the bands wern't gay
to Waylon and Willie
to Hank and Cash
to Page and Plant
to Axle and Slash
A little bit of Alice N mother fuckin Chains
We miss you Layne, well He shure could sing

We'll be a hundred years old still in the front row
singing every word with our devil horns in the air
'cause baby we were born to be here
We'll keep the record spinning all night long
we'll kick and roll hard till the break of dawn with
you
'cause thats what they would want us to do

So if you care about rock then sit right there we'll
take your ass back
to the early years where the jams were tight the kids
could play
the music didn't suck and the bands wern't gay
to Tyler and Perry
to the Brothers VanZant
From the Eagles to Elvis
to Stills and Nash
With a little Kid Rock beat on the back
and were on our way

Yeah they were Rock stars
Living life real large
they were all residents on the cover of the Rolling
Stone
They were all guitar slayers
They are Rock n Roll mayors
They are stone cold pimps untill the early dawn

Were on our way
yeah

They were Rock stars
Living life real large
they were all residents on the cover of the Rolling
Stone
They were all guitar slayers

They are Rock n Roll mayors
They were stone cold pimps untill the early dawn
Were on our way
