

# Shades

Sterling Knight

No you can't see me  
No you can't be me  
Yeah, I'm on my game  
That's right I'm in my shades  
See the camera's flashing  
In the party and it's time for action  
You're the main attraction  
Hey, in my shades

Pull up in the spot, looking hot, everybody knows  
Don't got no stress, my haircuts fresh  
Looking fly in my fancy clothes  
Yeah, they want to take my picture  
Watch out those lights will get ya  
And they're calling your name  
That's when I put on my frames

I tell them watch me now  
Little Mama how you like me now  
Get on the dance floor  
We can work it out  
And bring this whole place down  
Better stand up hands up  
B-boy and my stance like yeah what  
So get on the floor, show what you came here for

No you can't see me  
No you can't be me  
Yeah, I'm on my game  
That's right I'm in my shades  
See the camera's flashing  
In the party and it's time for action  
You're the main attraction  
Hey, in my shades  
Rap: If you're going to watch me, watch this  
And when you watch t.v. watch Chris  
About to have the whole place jumping  
Camera's flashing  
You know the bass bumpin  
Shades on like a rockstar  
And I'm bustin out the best moves so far  
Feel the air from the speakers  
So, So fresh from my head to my sneakers  
Turn the beat up on the radio  
I'm going to keep my frames on till I'm ready, go  
Got me caught on ice  
You have never heard this song like this(oh)  
If you ought to know, better get some ideas  
Maybe you should hollar at your boy right here  
And if the girl want to get crazed you can find me in my shades

No you can't see me(can't see me, yea)  
No you can't be me  
Yeah, I'm on my game  
That's right I'm in my shades  
See the camera's flashing  
In the party and it's time for action

You're the main attraction  
Hey, in my shades

No you can't see me(oh)  
No you can't be me( be me)  
Yeah, I'm on my game  
That's right I'm in my shades  
See the camera's flashing  
In the party and it's time for action  
You're the main attraction  
Hey, in my shades

Yeah, Yeah, Yeah
