

Last Dance

Steve Angello

It's you and me against the world
And this is our chance
Noone can stop us now
Cause this will be our last dance
It's you and me against the world
And this is our chance
Noone can stop us now
Cause this will be our last dance

I'm not here to help you out
I'm just here for you to help you find your way out
Mmm, we both know it won't be easy
But we will take the situation in our own hands

It's you and me against the world
And this is our chance
Noone can stop us now
Cause this will be our last dance
It's you and me against the world
And this is our chance
Noone can stop us now
Cause this will be our last dance

It's you and me against the world
And this is our chance
Noone can stop us now
Cause this will be our last dance
(This will be our last dance...)

Noone can stop us now
Cause this will be our last dance
