

Stockholm Skies

Steve Angello

A sovereign wind
I've never found before
The state I'm in has
Washed up on the shore

I've never been so ready
I've never felt so steady
A sovereign wind
I've never seen before

In the Stockholm skies
It's you and I

The path is not who you are
Just let it go, tonight
When this leading light delight
You're onto something right

In the Stockholm skies
It's you and I
In the Stockholm skies
Just you and I
In the Stockholm sky

The path is not who you are
Just let it go, tonight
When this leading light delight
You're onto something right

In the Stockholm skies

In the Stockholm skies

It's you and I

In the Stockholm skies
It's you and I
In the Stockholm skies
just you and I
In the Stockholm skies
