

# Control Freak

Steve Aoki

Control Me

Control me, can you control me? All of a sudden she arrives in  
my mind in my hindsight

She whispers all this time I've been gone

She say she can't sleep the night without me.

You've got my body, playing me out of my mind sometimes, get on  
Get On (Control freak)

Baby I've got the feeling that you want me

Maybe I love your swagger but you're such a cheat

Don't even know you, you

I can't stop thinking about you

And all the things we could do

Tell me to stop, tell me to move

Baby, we've got nothing to lose.

You've got my body, playing me out of my mind sometimes, get on

Control freak

Baby I've got the feeling that you want me

Maybe I love your swagger but you're such a cheat

Don't even know you, you, you

But I got to, gotta know you and all of what you're into

Tripping and skipping these records for the sound fool

Wanna bring out the freak in you

Control Me, can you control me

Control Me, can you, can you, you, you

Control freak

Baby I've got the feeling that you want me

Maybe I love your swagger but you're such a cheat

Don't even know you, you, you

But I got to, gotta know you and all of what you're into

Tripping and skipping these records for the sound fool

Wanna bring out the freak in you
