

# Caught Between The Rock & The Roll

Steve Azar

Jimmy's in rehab since Bobby O.D.d'  
There's no one in the band now but Johnny and me  
We're playing at the Good Time Lounge near the end of the road  
Bobby used to beat on his drums, make 'em sound like thunder  
Why he had to leave us, God only knows

Sometiems I feel like I'm caught between the rock and the roll  
I screamed and I cursed and I fought, but it won't let go  
This guitar is all that I've got playing it's all that I know  
I'm still lost in the music and caught between the rock and the roll  
Between the rock and the roll

Took a short walk through the big time made a little history  
The girls were young and beautiful and all the highs were free  
I thought that every night would last forever  
Now the ties been severed  
That old golden melody takes me back in time (yeah it does)  
Two a soft warm brown-eyed memory dancin' in my mind  
Every night when I close my eyes, we're still together

Sometiems I feel like I'm caught between the rock and the roll  
I screamed and I cursed and I fought, but it won't let go  
This guitar is all that I've got playing it's all that I know  
I'm still lost in the music and caught between the rock and the roll  
Between the rock and the roll

Between the rock and the roll
