

# One Good Reason Why

Steve Azar

Hey baby  
I've got big plans for me and you  
So put on that tight dress  
You know the one that always tells the truth  
It's been a heck of a week  
Whatcha say baby you and me set ourselves free, oh

Gimme one good reason why  
We shouldn't get a little crazy  
And kiss these blues goodbye  
I can't think of one to save me  
I tell you I've looked low and high  
And as hard as I've tried to find  
Why tonight should pass us by  
There ain't one good reason why

Hey baby  
There's a party goin' on right down the street  
Everybody'll be there  
And there's a dance floor waitin' for your pretty feet  
You deserve a little change  
I say we just drop everything  
And walk out this door

Gimme one good reason why  
We shouldn't get a little crazy  
And kiss these blues goodbye  
I can't think of one to save me  
I tell you I've looked low and high  
And as hard as I've tried to find  
Why tonight should pass us by  
There ain't one good reason why

Hurry up  
We're wastin' time  
Before it's too late and we change our minds  
And that would be the biggest crime, yeah  
C'mon girl

Gimme one good reason why  
We shouldn't get a little crazy  
And kiss all these blues goodbye  
I can't think of one to save me  
I tell you I've looked low and high  
And as hard as I've tried to find  
Why tonight should pass us by  
There ain't one good reason why

Gimme me one good reason, yeah oh  
Hey baby, I've got big plans for me and you
