

# You Don't Even Have To Try

Steve Azar

Just the two of us and a small cafe  
On a warm Biloxi night  
Somethin' happened when I heard you say  
Don't say goodbye  
What a sweet surprise

There I stood so unexpected  
It was the last thing on my mind  
But when I looked into your eyes  
I could feel it  
Love is easy  
You don't even have to try

All my life I've worked  
So hard, so hard for love  
Now I know the reason why  
'Cause when I look into your eyes  
I can feel it  
Love is easy  
You don't even have to try

Let's sit back down and light the candle  
We've still got time before they close  
We'll let our hearts embrace this memory  
For a moment  
Hold it  
Then slowly lose control

All my life I've worked  
So hard, so hard for love  
Now I know the reason why  
'Cause when I look into your eyes  
I can feel it  
Love is easy  
You don't even have to try  
You don't even have to try
