

All Across The Sky

Steve Green

All across the world
People everywhere
Ask "How can I believe in a God I cannot see?
If there really is a God, why is there so much pain?
If I could only see, then I'd believe."
If you could only see that His

Love is written all across the sky
As brilliantly the stars all testify
For the glory of the God Who reigns on high
Is displayed in the world He has made
And as all creation seems to shout and sing
In wonder of the one Almighty King
His signature can easily be seen on everything

Take a minute now and take a look around
Can you believe that everything you see
Took place by chance?
The intricate design
Down to the last detail
And what about the mystery that cuts us like a knife:
"What is the source of life?"
