## **Always**

**Steve Green** 

You are good always And in all ways You are working all things Together for our good You are good always In big and small ways I know I can trust You In everything You do

With the hard winds of life Blowing out of control It can feel like I'm all on my own But You've given me Your word And I know You'll never leave And I've never faced a single storm alone

I can't say it's always Been a smooth open road Or turned out the way I'd prefer But one thing I'm sure of You've been faithful to me And I live to give You all that You deserve
