

Awaken

Steve Green

Wake up, sleeping soul
The gift of light unfolds
Slowly the night gives way
Before the dawning day

Shine in, O morning light
Chase back the shades of night
Fill my heart with a song
Silence has reigned too long

I will awaken the dawn
Be the first voice of praise with a song
'Til the morning joins in and creation begins
To awake to the sound of this song

High as the heav'ns above
So great is the Father's love
Love unconditionally
Rejoicing over me

I will awaken the dawn
Be the first voice of praise with a song
'Til the morning joins in and creation begins
To awake to the sound of this song

Yo quiero cantar confelicidad
Porque tu renuevas mi ser
Al amanecer

Alma, despiertaya
Huye laoscuridad
Venga ala santa luz
De El Senor Jesus.

I will awaken the dawn
Be the first voice of praise with a song
'Til the morning joins in and creation begins
To awake to the sound of this song
