

Bring Back The Glory

Steve Green

All the laughter is gone
And the sound of the song that we sang
Slowly faded away
Simple joys that we knew
When we walked close with you, hand in hand
In the cool of the day
Are just memories
Or are they dreams
Yet we hold to the hope
That the music will come back again

Bring back the Glory
Won't you show us what life is for
Bring back the Glory
Make us open once more
Bring back the music the trust the wonder
That's just like a child who has never known pain
Bring back the Glory
The Glory again

Give me a cause that is grand
And a reason to stand
That calls for the best I can see
Something worthy to live for
A reason to give
Everything that I ever could be
O there must be more
Take me Lord
How I need you to give me
A glimpse of eternity

You are the Glory
You have shown us what life is for
You are the Glory
Make us like you once more
You are the music the trust the wonder
That's just like a child
Who has never known pain
You are the Glory
That Brings us together again
You are the Glory
That brings us together again
