

## Come And See

Steve Green

To all who are tortured and ravaged by sin  
The frail and the wounded about to give in  
There's news of release and captivity's end  
We've been set free, come and see  
Oh sleeper awake, come out of the night  
Throw open the door and step into the light  
For sin is undone and the wrong is made light  
We've been set free, come and see

Come and see, the power of sin has been broken  
The gates of your prisons stand open, come and see  
Arise, believe, for the power at work both to rescue and save  
Is the power that raised Jesus Christ from the grave  
We've been set free, come and see

I, too, lived in slavery, unmercifully bound  
Battered and broken I finally knelt down  
And there in obedience freedom was found, I've been set free  
And now through the dungeons of darkness and night

I run in the freedom of liberty's light  
And shout to the captives, 'Oh prisoner take flight  
We've been set free, come and see'

Come and see, the power of sin has been broken  
The gates of your prisons stand open, come and see  
Arise, believe, for the power at work both to rescue and save  
Is the power that raised Jesus Christ from the grave  
We've been set free, come and see

If the enemy's holding a knife to your chest  
Demanding you give up or die  
In Christ crucified you've already died  
And now you are free

Come and see, the power of sin has been broken  
The gates of your prisons stand open, come and see  
Arise, believe, for the power at work both to rescue and save  
Is the power that raised Jesus Christ from the grave  
We've been set free, come and see
