

We Have Seen God's Glory

Steve Green

There they are again
The witnesses of Jesus take their stand
Twelve amazing men
Their testimony spreads across the land
Such a story told!
How can they believe?
That God has walked upon the earth?
Could they be deceived?

But how their words persuade
The truth is in their eyes
And many hearts are won to faith
As they testify:

We have seen God's glory
We have lived and walked with Christ the King
We have seen Him heal the wounded
We have heard the brokenhearted sing

We have seen God's glory
We have seen Him dead and raised to life
We will worship Him forever
We have seen God's glory, Jesus Christ

Here we are again
The witnesses of Jesus take their stand
May it never end
Through us let God keep stretching out His hand
Reaching those who doubt
Touching those who cry
Lifting up the word of God
As we testify

Walking with our God
In such a living way
That when we share our faith in Him
We can truly say:

We have seen God's glory
We have lived and walked with Christ the King
We have seen Him heal the wounded
We have heard the brokenhearted sing

We have seen God's glory
We have seen Him dead and raised to life
We will worship Him forever
We have seen God's glory, Jesus Christ

We have seen God's glory
Jesus Christ
