## **The Show**

## **Steve Hackett**

Yes, I'm such a simple man Just book me on the flight Every day's another place Playing into the night

And you can't unwind You're wrecked before the show Everything's fine when you feel that 'Johnny go go go' - go go

Will you play tonight for me? Promise I'll do my best Yes, rock music should be free Money's worth less and less

And the walls should be cracked Four red faces make a noise All dressed in black I can't tell if they are girls or boys, or boys
