

Saturday Night at the Fair

Steve Harley

Put on your party dress, ready to go somewhere
Then slip in a DVD, put a movie on, muss up your hair
It's gonna be some night, it's gonna be a wild affair
We'll party like two young kids on a Saturday night at the fair
I wanna see you smile like you're getting your share.

We're getting the Karma right
Kissing by candlelight
Acting real devil-may-care
We're getting the Karma right
Kissing by candlelight
Thinking of Saturday night at the fair.

Where are you going to, shaking your long blonde hair ?
Settle yourself in here, put a movie on, play do-or-dare
You can lose your religion, babe, having a wild affair
Or thinking of someone else from the movie world I wouldn't care
Just wanna see you shine like you're getting your share.

We're getting the Karma right
Kissing by candlelight
Acting real devil-may-care
We're getting the Karma right
Kissing by candlelight
Thinking of Saturday night at the fair.

When all's said and done, baby
When all's said and done, baby
When all's said and done, baby, mmm.

Picture the two of us staying in a big hotel
Then open a deck of cards, play a party game we know so well
I wanna make you smile as you're getting your share.

We're getting the Karma right
Kissing by candlelight
Acting real devil-may-care
We're getting the Karma right
Kissing by candlelight
Thinking of Saturday night at the fair.
