

Spaced Out

Steve Harley

One, two, three, four

Can't define the beauty or the rhyme inside my mind
It my sense of love, a pride and precious time
I can't confine my movements to any great decree
Let's his thoughts so cool laugh
A man's so wild and free, oh

Woah, I never wanna go back to where I've been
There's a whole new world that I'm within

Oh, psychedelic can result
Pornographic signs
Flashing down on people
The bright and knowing lights

Echoed sounds inside my mind
My shattered senses hang
Living here I'm feeding a light of a lovely man, oh

Woah, I never wanna go back to where I've be-be-been
There's a whole new world that I'm within

Oh, oh, I said I never wanna go back to where I've been
There's a whole new world that I'm within

Oh, swear I'll come down
Spaced out
Blind, deaf and destroyed
I wanna lead and fade out
My bit of heaven boys

Can't command the answer
But I can demand the frame
To take me back, oh-oh-oh
Lead me to the end

Oh-oh-oh, I never wanna go back to where I've been
There's a whole new world that I'm within

Oh, I said I never wanna go back to where I've been
There's a whole new world I'm within
Oh, oh

Wow
Ferocious
