

## Spaced Out

Steve Harley

One, two, three, four

Can't define the beauty or the rhyme inside my mind  
It my sense of love, a pride and precious time  
I can't confine my movements to any great decree  
Let's his thoughts so cool laugh  
A man's so wild and free, oh

Woah, I never wanna go back to where I've been  
There's a whole new world that I'm within

Oh, psychedelic can result  
Pornographic signs  
Flashing down on people  
The bright and knowing lights

Echoed sounds inside my mind  
My shattered senses hang  
Living here I'm feeding a light of a lovely man, oh

Woah, I never wanna go back to where I've be-be-been  
There's a whole new world that I'm within

Oh, oh, I said I never wanna go back to where I've been  
There's a whole new world that I'm within

Oh, swear I'll come down  
Spaced out  
Blind, deaf and destroyed  
I wanna lead and fade out  
My bit of heaven boys

Can't command the answer  
But I can demand the frame  
To take me back, oh-oh-oh  
Lead me to the end

Oh-oh-oh, I never wanna go back to where I've been  
There's a whole new world that I'm within

Oh, I said I never wanna go back to where I've been  
There's a whole new world I'm within  
Oh, oh

Wow  
Ferocious
