

# Until The Rain Stops

Steve Holy

Nothing like a little thunder, telling us good morning  
Don't you just love that tin roof when it's storming  
Makes me wanna lay here and just do whatever  
Pull up the covers and hang out under the weather  
It's cat and doggin', something crazy  
Girl we oughta just keep it lazy  
Baby, baby

I don't really care if the sun don't shine  
It's a little more time for us to have  
From the outside world, you and me girl  
We've got all we need, tangled up in sheets  
So, why not stay in the same spot  
Until the rain stops

I think we better do, what mother nature tells us  
You know those windows they ain't gonna fog themselves up  
Ain't no blue sky, on that horizon  
But I bet you we can find us a silver linen  
Girl the rain drops, they got their own little rhythm  
So let's move with them

I don't really care if the sun don't shine  
It's a little more time for us to have  
From the outside world, you and me girl  
We've got all we need, tangled up in sheets  
So, why not stay in the same spot  
Until the rain stops

We can lay low, breathe easy  
And just go with the flow

Oh baby, baby

I don't really care if the sun don't shine  
It's a little more time for us to have  
From the outside world, you and me girl  
We've got all we need, tangled up in sheets  
So, why not stay in the same spot  
Oh baby, why not stay in the same spot  
Until the rain stops  
Until the rain stops  
Oh baby, baby  
Until the rain stops
