

China

Steve Kilbey

China, saw your sister on the Nile/online
When I asked her, he admitted they all love

Come on down, we're gonna take you deeper
You're gonna be fine, you're gonna be asleep
And when the day comes

Come on down, we're swimming in the black now
Can't go forward, can't go back
When the end comes

China, heard you singing with your friends
I'll be back tomorrow when my body mends
