## **Lonely Beat Of My Heart**

## **Steve Lukather**

Cold night, you're gone I can't remember who was right or who was wrong Warm days with you Girl we had everything and nothing to lose

Used to own the world When you were near me Used to have it all Now you're not here Now all I'm hearin' is the

Lonely beat of my heart I'm lost in loneliness I can't hear nothing but The lonely beat of my heart That's how it's gonna be Till you're beside me again

Night fades, day breaks Another morning baby calling out your name Walk down these streets, yeah I see your face in everybody's face I see

I can't stand the pain I need you near me Baby don't you know, Until you're here All I'll be hearin's is the

Lonely beat of my heart I'm lost in loneliness I can't hear nothing but The lonely beat of my heart That's how it's gonna be Till you're beside me again

Don't you know that I'd give anything To have you back in my life Well you know baby I would sell my soul Just to hold you one more time

It's just a lonely beat of my heart I'm lost in loneliness I can't hear nothing but The lonely beat of my heart That's how it's gonna be 'Cause all I'm hearing is the Lonely beat of my heart

Lonely beat of my heart I'm lost in loneliness I can't hear nothing but The lonely beat of my heart That's how it's gonna be Till you're beside me again
