

# Turns To Stone

Steve Lukather

A thousand miles underneath my emotions  
Hidden from the eyes of everyone  
No one must know  
All the secrets of my soul anymore  
No never again

Girl you've got the only key  
To open up the door - only you, for now  
Eventually, even that could change

I will wait for you  
But I don't want to wait forever  
Cause I'm on my own  
I'm trying to keep the fire from getting cold  
I will wait for you  
But I don't want to wait  
Until our love turns to stone

I don't want to turn to stone

I don't want to spend another night without you  
I'm afraid my mind will start to wander  
Time between us,  
Hours turning into days, into years  
Oh, oh, oh  
Looking back at what went wrong  
Some things we must let go  
Eventually, something's got to give

I don't want to turn to stone
