Steve Moakler

Cinderella lyrics:

(verse 1)

Please darling come out of your spell  
Cause I miss you, I miss you  
I know this air is cold and bare  
But I'll hold you, I'll hold you

(bridge)

I know the summer nights they died so long ago  
I felt the fall between our lives when I let you go  
And if there's a will there is a chance  
Here's to reaching for your hand

(Chorus)

Pour your eyes into mine  
And tell me you can't say good bye  
These closing statements I will pry them open  
Bring dire chances back to life back to life  
Back to life  
ohhh

(Verse 2)

Oh I know well I know your loss for words  
And it's alright it's alright  
Before it gets better it gets worse  
And I'll fight with you all night

(bridge)

They say that summer nights they died just let it go  
And there's a fall between our lives starting to show  
And if Cinderella left the dance  
Before midnight came and went  
The world would never know so  
Know so

(Chorus)

Pour your eyes into mine  
And tell me you can't say good bye  
These closing statements I will pry them open  
Bring dire chances back to life  
Back to life

(bridge)

Cinderella, it's not midnight  
Cinderella, it's not midnight  
Cinderella, it's not midnight  
Cinderella, it's not midnight  
Cinderella, it's not midnight  
It's not midnight

I miss you  
I miss you  
Come out of your spell  
Come out of your...
