

# Today

Steve Moakler

Step out from the walls  
It's time to start the dancing  
Stop holding all your cards  
It's time to take some chances  
Fall into a dream  
And let it spit you back out  
Just drop everything  
Take a look around you, take a look around you, oh

Send your fear away, let it slip away  
Today is a revival  
Today, today  
All you need to know is that you're letting go  
Today is a revival  
Today, today

Man don't you just stand there  
Go on and tell her  
Just look at all the love  
Ain't it like a shelter?  
When you just...

Send your fear away, let it slip away  
Today is a revival  
Today, today  
All you need to know is that you're letting go  
Today is a revival  
Today, today

Brother are you broken?  
Sister are you down?  
You don't have to stay in your place  
In your place

Send your fear away, let it slip away  
Today is a revival  
Today, today  
All you need to know is that you're letting go  
Today is a revival  
Today, today  
(Repeat 1x)
