

True Like Your Name

Steve Moakler

You're sweet like I can't deny
You say it to me and you only use your eyes
So come here don't move
I've got a lot heart growing heavier for you

Stay beside me let me be your frill
Rush the feeling moving in the still
Between us half is far too strong to break
Too wild to take
Deep as the dark, true like your name

The sparks in your touch
I'm playing with fire
You're never too much that I am entirely in
Love is the worst you can't explain
But once you feel it inside you're not the same
I climbed so high that I can't find the air

Stay beside me let me be your frill
Rush the feeling moving in the still
Between us half is far too strong to break
Too wild to take
Deep as the dark, true like your name

Ohhhhhhhhhh
Your eyes wake up my soul
Sing ohhhhhhhhhh
Just like cheap thrills and rock and roll
You take me from the place I know
Take me from the place I can go

Stay beside me let me be your frill
Rush the feeling moving in the still
Between us half is far too strong to break
Too wild to take
Deep as the dark, true like your
Deep as the dark, true like your name
True like your name
True like your name
Come on now
Deep as the dark
Deep as the dark
