

# Young Hearts Forever

Steve Perry

In the friendship of lovers  
Lives the joy of the heart  
And when trust is forsaken  
Our whole world falls apart  
And when the wind cries you're with me  
And tears say enough, then the song prays for love

Young hearts forever  
Don't wait one moment this time  
Love is forever (with somebody like a you, yeah)  
The young hearts survive

On the wings of an angel  
Ooh, a child learns to fly  
And little by little, the sands move through time  
And I can live a lie but I think I know better

Young hearts forever  
Don't wait one moment this time  
Love is forever (with somebody like a you, yeah)  
The young hearts survive

Here in the darkness  
She dances alone  
Roses from yesterday  
Will she ever know

Young hearts forever  
Don't wait one moment this time  
Love is forever (with somebody like a you, yeah)  
The young hearts survive

With somebody like a you yeah  
Young hearts, young hearts  
Will love, will love, be forever  
One moment in forever, forever  
Forever (with somebody like a you, yeah)  
Give me just a little more time  
She was an old flame of mine  
I remember, I remember
