Down Deep into the Pain

Steve Vai

So naive, so innocent
Thrust in a world too intense
Flesh is weak but the soul is strong
And you will bleed but you'll carry on

Yes you need your pain Life is pain I could hold your hand But you must take your pain

I don't need sacrifice, I don't need advice This hurt surrounds me like a dissonance Anger is power I use it to protect myself from insanity

You gotta go down deep down into the pain
Let it purge your soul like flesh to a razor blade
Dig down deep into the pain
Surrender surrender
Drift into euphoria

Time may never heal the wounds Hearts bleed hard even the sun cries moon Fate is tragic just for heaven's sake The good Lord giveth and taketh away

'Cause you need your pain God gave us pain I can hold you in my arms But I can't take away your pain

I am not long for this world Please save me from myself and my discipline Lashing out with tight fists in despair My plight is running from reality

Put yourself down deep into the pain Embrace the bliss of pure sensation You can't escape from ultimate pain So let your senses drift into euphoria

Blood is thickest when love is bold But blood runs thin when the heart grows cold

So you need your pain, we all need pain We were born into this world To feel the joy of all our pain

The falling will be gentle and soothing but the awakening will be as rivetin g as an explosion. Eyes open to total darkness, body floating in encompassin g tranquility, and then the voice came.

"Hear this voice and know that it will be with you always".

Phantoms of opulent auras emblazoned in a repulsively lush turmoil of incomp rehensible vastness, dance in a sea of timeless infinity.

Is this the voice of my God?

This is the voice of liberation.

Man, you've got to be kidding me.

Go forth and rise to life rise You will have the freedom to think And choose as you wish

What do I choose?

Your life will be shaped around your choices
And the fight is on
Every minute of every day
Every action in every way
Is every creature's expression to
Be one with its creator
From a simple prayer to a senseless murder

Where do I find you when I need you?

You will search and you will question.

Worship me in your joy and curse me in your pain.

You will fight, kill and love in my name

But I have no name

Always keep in your thoughts that life is good

But do not fear death

For I am closer to you than your very own breath

And I love you

And I want you to know me

Now beautiful life awaits you

And when I count to 3

You will awake and you will remember everything I've said
