

Blinded

Steve Wariner

I didn't mean to stumble
And I didn't mean to fall
But it's hard to keep your balance
When your running into walls
But there's an explanation
Baby, for the situation I'm in

I am blinded by the light of your love
I don't know where I'm going or which way is up
I've never been lost and liked it so much
I am blinded by the light of your love

It's hard to see a miracle
When standing up too close
It's difficult to focus when
It's right beneath your nose
Till love makes its correction
And determines the direction for me

I am blinded by the light of your love
I don't know where I'm going or which way is up
I've never been lost and liked it so much
I am blinded by the light of your love

I didn't mean to stumble
And I didn't mean to fall
But it's hard to keep your balance
When your running into walls
But there's an explanation
Baby, for the situation I'm in

I am blinded by the light of your love
I don't know where I'm going or which way is up
I've never been lost and liked it so much
I am blinded by the light of your love

I am blinded by the light of your love
I don't know where I'm going or which way is up
I've never been lost and liked it so much
I am blinded by the light of your love...
