

## Cry No More

Steve Wariner

I know he was cruel to you, he kept you down  
He never heard the voice inside you never heard the sound  
Of angels singing you know they are around  
They look just like you their tears fall to the ground

So smile it's behind you now  
And in time in time  
You won't cry no more  
You won't cry no more

Livin' in the shadows baby, let me in  
If you let his memory hold you back you let him win  
Shackles on your soul are rusty waiting for release  
All I want to do is love you give you peace

So smile it's behind you now  
And in time in time  
You won't cry no more  
You won't cry no more

All I want to do is love you and give you peace  
So smile it's behind you now and in time in time  
You won't cry no more  
So smile it's behind you now and in time in time

You won't cry no more  
You won't cry no more  
You won't cry no more
