

# I Wish I Were A Train

Steve Wariner

Lyin' awake at night  
Thinkin' about my life  
Train rumblin' thru our town  
Walls shake like they're coming down.

You sleep like nothing's wrong  
You don't know tomorrow I'm gone  
You don't hear the whistle's sad cry  
You don't see the tears in my eyes.

I wish I were a train rolling on a track  
With three choices  
Stop on a dime, move ahead or go back  
But I can't go back and face the pain  
So I lie here and wish I were a train.

Baby once we had it all  
This ain't nobody's fault  
Seems like everything changed  
Love just up and moved away.

On a train rolling on a track  
With three choices  
Stop on a dime, move ahead or go back  
But I can't go back and face the pain  
So I lie here and wish I were a train.

I wish I were a train rolling on a track  
With three choices  
Stop on a dime, move ahead or go back  
But I can't go back and face the pain  
So I lie here and wish I were a train...
