

It Wouldn't Be Love

Steve Wariner

You say you're scared what if your heart breaks
Well, that's just a chance you're gonna have to take
'Cause if you wanna fly you've got to spread your wings
Take a leap of faith and see what it brings.

It wouldn't be love
Baby if we didn't need it so much
Or if it were that easy to give up
If we didn't stand to lose it all
And if it didn't hurt so much to fall
You know it wouldn't be love.

Love can move mountains make right what is wrong
Nothing's as gentle yet quite so strong
And when the road gets rocky we'll be just fine
if we always remember and keep this in mind.

It wouldn't be love
Baby if we didn't need it so much
Or if it were that easy to give up
If we didn't stand to lose it all
And if it didn't hurt so much to fall
You know it wouldn't be love...
